太空总是充满未知,让人们不断地想去探索。本系列灵感来源于电影银河护卫队,来自各种不同星球、不同形态的生物为了同一个目标共同努力,形态各异的外星文明也引发了设计师们对于太空的幻想。

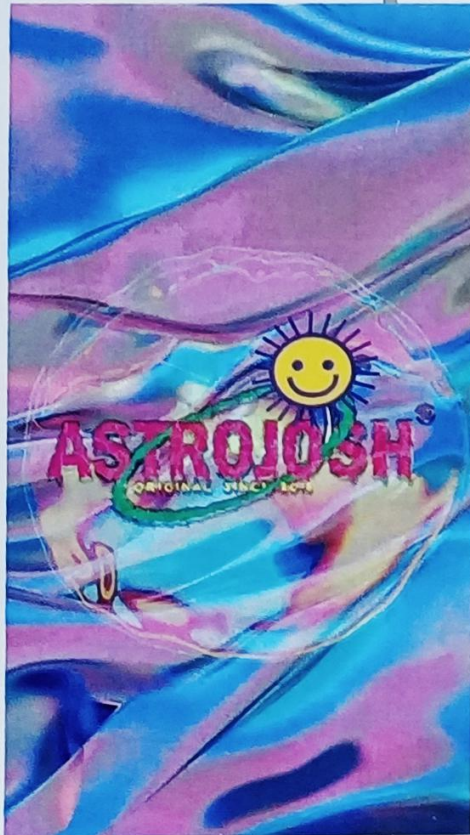

Space is always full of unknowns, which keeps people wanting to explore. This series is inspired by the movie Guardians of the Galaxy, where creatures from different planets and in different forms work together for the same goal, and alien civilizations in different forms also arouse designers' fantasies about space.

## SCREEN PRINTING PROCESS

街头艺术本来就带有颠覆正轨的精神，或许它们的风行就是为了反叛渐趋贫乏、无趣的高级时装，借由设计师的大胆与创意来点碰撞、冲击，再加上一点令人会心一笑的幽默。采用TPU与丝印工艺，使涂鸦式的趣味图案文字变得鲜活、精致，既富街头风味也保有俏皮的女孩感。

Street art has a subversive spirit, and perhaps its popularity is to rebel against the increasingly meagerness and boredom of high fashion, with designers' boldness and creativity for a bit of collision and impact, plus a bit of humor that makes people laugh. The use of TPU and silk screen printing process, so that the graffiti style of interesting patterns and words become fresh, delicate, not only rich street flavor but also maintain a playful girl sense.

# MREFLECTIVE IRIDESCENCE

## 反光幻彩

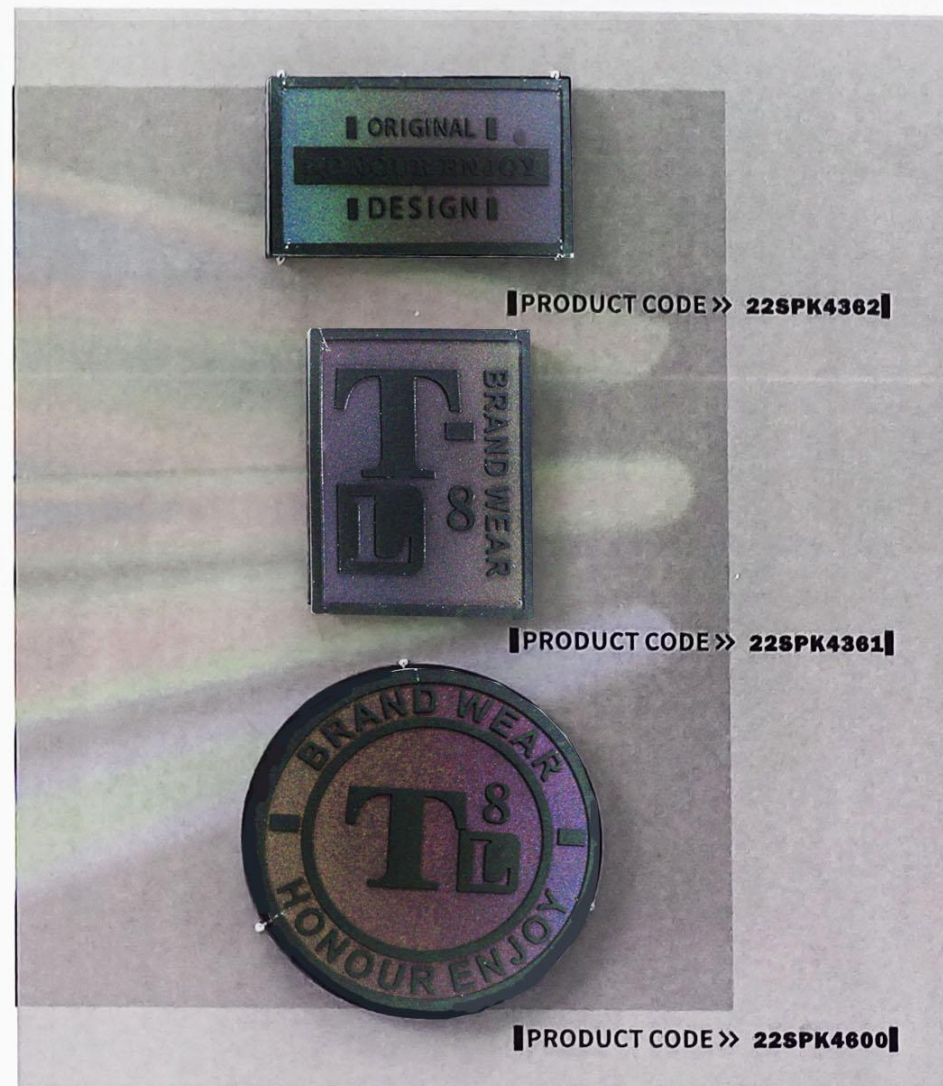

近年来，随着经济的迅猛发展，夜间交通事故的发生更是频繁，而反光材料是一种基础性光学应用材料，可将入射光线定向回归反射，产生明亮的反光效果，获得色彩鲜明的视觉感观。使用反光材料制成的各种标牌和用品，可以在夜间有效地增强人的识别能力，看清目标，从而避免事故发生，减少人员伤亡，在人类的生产、生活活动中，特别是交通工程中起着安全保障作用，其社会效益十分凸显。

In recent years, with the rapid development of economy, traffic accidents happen more frequently at night. As a basic optical application material, reflective material can reflect the incident light directional regression, produce bright reflective effect, and obtain bright color visual perception. The use of reflective materials made of a variety of signs and supplies, can effectively enhance people's ability to identify at night, see clearly the target, so as to avoid accidents, reduce casualties, in human production, life activities, especially in traffic engineering plays a safety role, its social benefits are very prominent.
